

SayaraHub — Legal Information

- **Last Updated:** January 2026
- **Version:** 2.0
- **Jurisdiction:** Dubai, United Arab Emirates (UAE)
- **Governing Body:** Dubai Department of Economy and Tourism (DET)

UAE Trade Licensing Profile

This digital portal operates in alignment with the UAE Department of Economy and Tourism directives. Registered trade licenses will be updated post official launching.

1. Corporate Profile & Registry

SayaraHub is an online automotive marketplace platform, registered and operating within the Emirate of Dubai, United Arab Emirates. The platform is designed to facilitate local connections between car owners and automotive service operators.

- **Company Entity:** SayaraHub Portal (Registered in Dubai, UAE).
- **Trade License Number:** [To be updated by the Client upon official licensing].
- **Jurisdiction:** Dubai Economic Department (DED) regulations.

Operational Profile: SayaraHub does not sell spare parts or execute mechanical services. We are a digital portal facilitating third-party connections.

2. Intellectual Property & Trademark Protection

All material displayed on our platform, including source code, database structures, UI/UX designs, logo graphics, brand typography, and promotional copywriting, is the exclusive property of SayaraHub and is protected under UAE Trademark Law and Copyright Law.

- **Trademarks:** The name 'SayaraHub', the logo, and custom slogans are registered trademarks. Any usage requires written authorization.
- **Restrictions:** Scraping database tables, reproducing UI templates, or extracting telephone numbers of mechanics for direct marketing database compilation is strictly prosecuted.

3. Disclaimer of Professional Advice

The content, mechanical guides, diagnostic suggestions, and reviews published on SayaraHub are provided for general informational purposes only:

- **No Auto Advice:** Platform information does not substitute for professional vehicle diagnostics. Always consult a certified workshop before conducting major repairs.
- **User Reviews:** Reviews and ratings represent the opinions of individual users and do not reflect the views or endorsements of SayaraHub.

4. Third-Party Services Disclaimer

Our services rely on independent third-party operators (mechanics, garages, towing providers) who register their businesses on our platform:

- **Operational Autonomy:** Each garage operates independently. They are responsible for acquiring necessary DED permits, commercial licenses, and liability insurances.
- **No Endorsement:** The presence of a garage profile on SayaraHub does not imply a safety audit or endorsement of their physical repairs.

5. UAE Consumer Protection Compliance

SayaraHub operates in harmony with UAE Federal Law No. 15 of 2020 on Consumer Protection:

- **Direct Grievance:** Since transactions are direct, service-related complaints (e.g. poor paint quality, faulty engine repairs) must be raised directly with the servicing garage.
- **Mediation Support:** While we hold no financial liability, users can submit dispute reports to SayaraHub support for account review and mediation.

6. Jurisdiction & Law Enforcement

Our legal parameters are framed under the laws of the UAE. Any legal challenges, copyright infringements, or claims will be resolved in UAE courts.

- **Law Enforcement Requests:** We cooperate with Dubai Police and other federal authorities to disclose data in cases of stolen parts sales or road hazard violations.
